

Cagliari Segway Tour

The afternoon Tour sets off at 4pm and lasts one hour. Participants should come to the Meeting Point 30 minutes before arranged meeting time for basic training.¹

Services Included

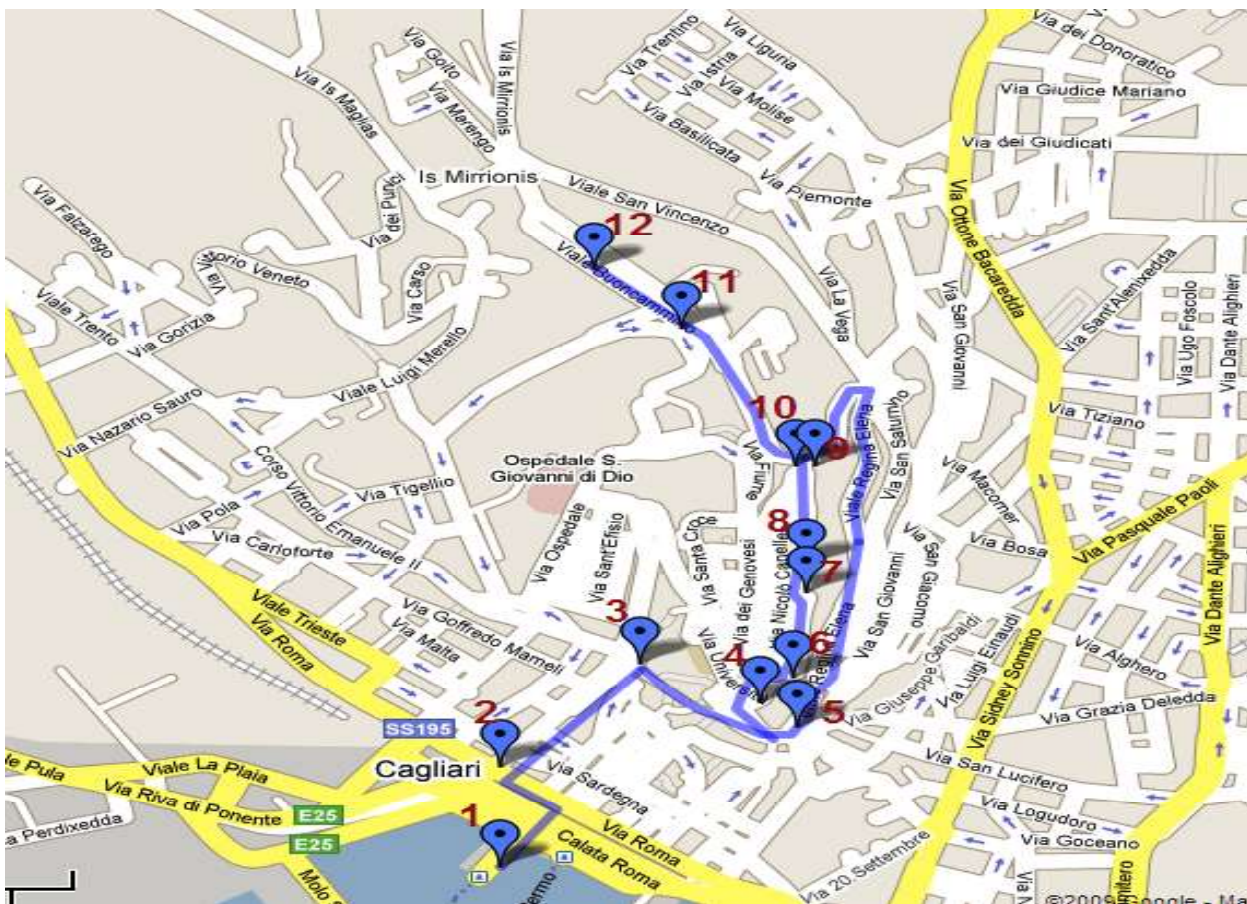

- rental of Segway and helmet
- audio guide system (English)
- raincoat in the case of rain
- thirty minutes orientation training
- Segway supervisor
- coffee/drink

The Meeting Point can be reached from T Hotel by a short bus ride: Bus n.1 from Piazza Giovanni XXIII, or bus M from Via Bacaredda. Participants should alight at the stop in Via Roma in front of the Port, indicated by Number 1 on the map.

| 9. Piazza Costituzione | 10. Amphitheatre |
| 11. Ramparts | 12. Jail |

Map of the Route

¹.Participants should be capable of getting on and off the Segway and keeping their balance unaided, corresponding to the physical exertion required on going up and down stairs unaided. Participants should weigh no less than 45kg and no more than 110kg. Use of the Segway is not recommended for expectant mothers beyond the second month of pregnancy

Defined as "the world's first self-balancing human transporter". Unlike a car, the Segway PT only has two wheels, yet it manages to stay upright by itself.

To move forward or backward on the Segway Pt, The Rider just leans lightly forward or backward. To turn left or right, the rider simply moves the LeanSteer frame left or right. You get the sense of power and speed, yet you also feel a sense of safety and absolute control. It all feels natural, safe, and instinctive.

The Segway Pt can take you places that a car or a bicycle can't- including inside many stores, office buildings, businesses, airports, elevators, and trains. Although they are ideal for short jaunts, Segway PTs can travel as far as 24 miles/38 km on a single battery charge, depending on terrain, payload, and riding style. While a Segway Pt is incredibly fun to ride, it is serious transportation designed for today's world.
